

FEMA

MGT489: Managing Public, Private and NGO Partnerships to Prepare for and Solve Critical Logistics and Supply Chain Challenges During Large Scale Disasters

Hosted by King County Em. Mgmt.
May 29-30, 2024

TARGET AUDIENCE

Public and private sector disaster logistics and supply chain stakeholders; Federal and SLTT leadership and management; Emergency Management personnel and logistics and planning staff; Councils of Government; Councils of Area Development Districts; Non-profits and planning organization representatives; Private sector organizations and associations.

COURSE OVERVIEW

The course goal is to enhance public, private, and NGO partnerships to prepare for and manage critical logistics and supply chain challenges during large-scale disaster situations, including COVID-19. In times of disaster, even Supply Chains that were previously functioning can experience significant disruption, generating acute life-safety challenges and quickly turning a disaster into a catastrophe.

The course provides a practical approach for participants to develop and incorporate collaborative public-private solutions into disaster preparedness planning for both the public and private sector to ensure and support disaster resilience in the Supply Chain and address the Food, Water, and Sheltering lifelines. **Course Length 16-hours/1.6 CEUs**

AGENDA

- Module 1: Course Introduction
- Module 2: Building Critical Cross-Sector Partnerships
- Module 3: Planning: Key Issues
- Module 4: Planning: Implementing Change
- Module 5: Response, Resources, Operations
